

HOME DEPOT LIKED OUR **BUZZ.**

*{ In 1999, Home Depot sales were }
measured in the billions.*

They trusted us to ship palettes
that became homes and communities
and neighborhoods. If it could be
nailed, cut, colored, doweled,
tacked, placed, planted, grown or
carpeted, this is where a new
breed of construction pros and a new
generation of do-it-yourselfers call
home. We know what it takes
to build a future.
