

Capture Technologies, Inc.
Brand Names, Quality Supplies
and Personalized Service

What We Do...

A Leading Independent VAR Since 1948.

For over 50 years, Capture Technologies, Inc. has been an independent VAR. As a leading provider of top-tier solutions, our clients span a variety of industries: the financial sector, public safety, legal services, healthcare, education, and government.

How We Do It...

Best-in-Class Products and Service.

We work with the leading brand names in voiceover Internet protocol, voice recording and video surveillance, photo identification solutions and authentication, access control, dictation and safety supplies.

How We Do It Better...

A Security Focus.

All of our products and services are designed to have a security verification and authentication component. This focus has helped us thrive in a competitive market.

Top-Tier VoiceOver IP
Telephone Products

Brand **AltiGen**

Products and Benefits:

- **Altiserv SmallOffice** – Targeted for 8 to 25 users, this system affordably integrates the voice and data communications of telephones, voice mail, e-mail, web interactions, and both local and remote IP calling into one system.
- **Altiserv Office** – Perfect for 25 to 100 users, this mid-sized converged system is more robust than the SmallOffice product.
- **Altiserv OfficePlus** – Intended for 100 to 250 users, this high-capacity converged system can handle the increased volume of a large office.
- **AltiGen's Integrated Contact Center** – Aimed at 150 users, this software, integrated within the Altiserv Office IP PBX, is tailored specifically for the requirements and budgets of the small to mid-size organization.

Registered
Partner

The World's Best-Selling Photo
Identification Systems

Brand **Datacard Group**

Products and Benefits:

- The industry's most extensive product line for membership cards, loyalty programs, Smart Card technology, Barcodes, Magnetic stripes, biometrics, and more: Entry-level, low-volume, mid-volume and high-volume systems.
- Seamless compatibility between components: identification system, image capture devices and software, and the world's preferred family of card printers.
- Systems allow you to provide positive identification and tamper-evident protection.
- The clear leader in reliability, quality and simplicity.
- Offering a wide variety of professional services.
- World-class service in more than 120 countries.

Technically Advanced
Digital Voice Loggers

Brand **Mercom, NICE, ASC**

Products and Benefits:

- Mercom provides an advanced suite of Call Center tools:
 - Audiolog™ Call Recording Server is the optimum public safety recorder; and
 - Interaction Quality(tm) software is designed for agent/call taker evaluation.
- NICE offers Evaluation Software for each of its products:
 - NiceCall Focus — compact and cost-effective;
 - NiceLog — the world's most advanced and scalable voice logging system; and
 - NiceCLS systems — state-of-the-art CTI call logging system.
- ASC is a leading global provider of integrated communications recording and quality monitoring solutions:
 - Marathon Evolution and EVOlite are the most advanced products available on the market today.
